## ACKNOWLEDGEMENT OF NATIONAL NURSING WEEK: May 12- 18

Today May 12, marks the beginning of **National Nursing Week**, and we at HBT proudly join Canadians across the country in recognizing and honouring the invaluable contributions of nurses to our healthcare system and our communities.

Nurses are at the heart of care — offering compassion, skill, and unwavering commitment to the well-being of others. Whether in hospitals, clinics, long-term care facilities, or community settings, nurses play a critical role in promoting health, providing comfort, and saving lives every day.

We extend our deepest gratitude to all nurses for their dedication, resilience, and professionalism. Your work makes a profound difference, and today we celebrate and thank you for all that you do.

You can learn more about events and tributes celebrating nurses [here](#).

Happy National Nursing Week to all who serve!
